Wednesday, August 29. 1722.

London, August 29.
Yesterday arrived a Mail from Holland.

Constantinople, July 26.

NO fresh Particulars have been received here lately concerning the Commotions in Persia, and hitherto the Sophy's Fate is unknown to us. On the 21st Instant Jonnian Coggia arrived here from Bona, having obtained the Grand Signior's Pardon: The Grand Vizier gave him a kind Reception, and 'tis not doubted he will be restored to his Post of Chief Admiral. The Imperial Resident sends an Express this Day to Vienna, concerning the French Tartan that was carried to Trapani in Sicily with Jonnian Coggia's Goods which are now claimed by him.

Moscow, Aug. 8. Great Quantities of warlike Provision are continually sending from hence down the Volga for Astracan, but we have had the bad News of a Ship being lost lately on that River, laden with Ammunition, 50 Cannon, and other Stores. M. Cederentz, the Swedish Minister, is newly arrived at Petersbourg, and is daily expected in this City. M. Sennisky, a Polish Nobleman, who was included in the last Treaty of Peace, is arrived here from Siberia whither he had been banished, and is now returning to his own Country. An Express is daily expected from Astracan with a true Account of the Dispositions for the Caspian Expedition which the Czar made soon after his Arrival at Astracan; it is said that the Preparations there were in great Backwardness on his Arrival, which makes it conjectured that his Return to these Parts is not likely to be so soon as it was at first given out. It is reported here, that the Czar has an Army of 30000 Men encamped near the River Daria to cover the Pioneers and other Workmen that are employed in building the new City, who likewise are all armed. 'Tis said, the Troops which march thither endure great Fatigues, and arrive very slowly, because of the many Rivers they are constrained to wade over. It is more and more believed that the Czar will find this Enterprize to exceed the Difficulties he expected to meet with, especially if it be true what is reported by some Advices from Persia, that Miri-Weyr, and the principal Nobility of Persia being reconciled, have set up the young Sophy on the Throne, and are marching with 30000 of the best Troops of Persia to join a great Body of Tartars in order to oppose the Muscovites. Count Kinski set out from hence the 27th past on his Return to Vienna through Warsaw. The Danish Envoy has had a Conference with the Czar's Ministers, and seems satisfied with their Declaration concerning the Muscovite Fleet in the Baltick, which they affirm is only to keep their Mariners in Discipline, and need no ways alarm the other Maritime Powers: The Envoy has dispatched an Express to Copenhagen with this Declaration, and 'tis presumed, that as soon as this Minister receives that Court's Resolution concerning the Imperial Title demanded by the Czar, he will return back to Denmark.

Paris, Aug. 22. The Act of Guarantee in Favour of the King of Sardinia, as far as relates to his Majesty in certain Articles of the Quadruple Alliance, was signed Yesterday. Some of the Pro-

testant Ministers have interceded in Behalf of the Reformed Inhabitants of Sleidal, in the Territory of Strasbourg, of whom some have been committed to Prison: It is assured, that the Cardinal du Bois has given them Answer, that he will examine their Case, and procure Justice to be done them. The following is a Copy of a Writing, or Manifesto, concerning the Marechal de Villeroy's Dismission.

REGAL Authority is accountable to God alone for its Decisions and Execution of its Will; nevertheless, Kings and the Trustees of their Power, will, out of Goodness, sometimes make known the Reasons upon which they act. There are certain Seasons in which they are prompted by Wisdom to lay by their Prerogative, in Order to confound the evil-minded, and avoid giving Offence to weak Persons; and such is the present Juncture. The Marechal de Villeroy, the King's Governour, is ordered to go to his Government; but it would be very sad, if upon Account of his Removal, the Publick should mistrust that Marechal's Zeal and Fidelity to his Master. Justice must be done to the Uprightness of his Intentions, yet at the same time, that Governour presumed too much on the Dignity of his Office; he affected a certain Air of Independency, which neither the Sovereign Power, nor those who are its Trustees can tolerate; his Pretensions were not becoming either towards his Majesty, or the Honour of Princes of his Blood; he would, in a Manner, raise up a separate Throne in Opposition to that of the Regency, as though the Royal Authority could be divided. Without all these Indiscretions, which do not touch that Marechal's Probity, we would be again satisfied to see him near the King's Person; but good Intentions alone will not suffice in important Stations; there each Step must be measured, and Submission paid to the Spirit of Government by all who have in View only the King's Glory, and his Subjects Good.

Paris, Sept. 2. The Preparations for the King's Coronation are continued with extraordinary Diligence, and his Majesty is expected here the 3th of next Month, in order to begin his Journey for Rheims on the 6th or 7th following. 'Tis said the King will lie the first Night on his Way thither at Dammartin; the second at Villars Cotterets; the third at Soissons, and stay there the next Day; the fourth at Fismes; and the fifth at Rheims, where his Majesty will continue about six or seven Days, including the Time of his Journey to St. Marcon; and that he will return back to this City by the same Route he went to Rheims. The next Day after the Coronation, the King will only create Knights of the Order of the Holy Ghost, viz. the Duke de Chartres, and the Count de Charolois; the Number of Persons on the List that are designed to be invested with this Order of Knighthood, being considerable, the further Creation will be put off till after his Majesty's Return hither. The King's Regal Mantle, and Dalmatick Vestment are almost finished. Besides the Crown of Charlemain, with which his present Majesty is to be Crowned, another of Gold set with the finest Diamonds and Pearls is preparing for him to wear when he is sitting on his Throne; and it is said, that the big Diamond which formerly was Mr. Pitt's, is to be placed on the Front of the Diadem. During the King's Stay at Rheims, the Infanta Queen will reside at the Louvre.

The Princely LOTION,

Which beautifies the Face, Neck, and

Hands, to the utmost Perfection, and is in the greatest Esteem among Ladies, &c. of the first Quality: No Words can sufficiently express its Virtues; for it is not Paint to put a false and unnatural Gloss on the Skin, but a true Remedy, that by its Use really adds a Lustre to the most beautiful, by shewing the fine Features of the Face, and beautifying the Neck and Hands to the greatest Perfection, and is so safe, that it may be taken inwardly, or if smelt'd to, is really good against Vapours, &c. in Ladies, the very reverse of all other Remedies of this kind, that raise the Vapours. It infallibly kills Worms in the Face, takes away Freckles, Spots, Wrinkles, Pits or Marks of the Small Pox; and assuredly cures any Defects of the Face, giving a charming youthful Lustre, and fine Air to the Features to Admiration. As for such Persons as are of a sallowish Complexion, or troubled with any disagreeable Redness, Roughness, Moleheav, Heals, or the like, it is not to be pass'd by: For it immediately smooths, clears, plumps, nourishes, and whitenes the Skin to the last Degree; and makes those Persons who before look'd haggard and old, to look young, beautiful, and fair; and in a Word, does all that can be done by any thing of this kind. Is sold only at Mr. Ward's Toy-shop, at the Peacock, next the Swan Tavern, against the Royal Exchange in Cornhill, London, at 1s. 6d. a Bottle, with Directions.
